

DRUM SANDER POLISHER LS 1200B

ADVANTAGES

- Drum sander with a powerful 1300W S1 motor (constant service). Specially designed for polishing, burnishing, and metal nuancing, as well as rust removal on any kind of metal. It also excels at plastics and wood processing.
- Electronic speed regulator from 900 up to 3000 rpm, for a precise tool control and adaptation to the surface to be polished.
- Constant speed system with a tacometer, the tool is able to keep the selected speed no matter the workload or pressure over the drum roll.
- Soft Start to reduce the user exhaustion, injuries and accidents as well as easing the work set-up.
- Motor protective grid to avoid harmful and abressive debris getting inside the motor while improving it's refrigeration. Extends the tool's lifespan.
- Quick carbon brush replacement accesible through the housing.
- Spindle lock for an easy and quick drum roll replacing.

DATA SHEET

Power	1300 W
No load speed	900-3000 min ⁻¹
Drum roll diameter	Ø100-125 mm
Drum roll width	100 mm
Spindle thread	M8 M
Axis diameter	19 mm
Weight	4.6 Kg

- ### INCLUDES
- Auxiliary handle.
 - Abrasive drum roll.
