

ROUTER

PR 10 EK

ADVANTAGES

- Double handle milling machine with 1800W and capacity for router bits with shafts from $\varnothing 6$ to $\varnothing 12.7$ mm.
- Designed for all types of milling, mouldings, chamfering, bevelling and the most demanding hardwood mortises.
- Electronic speed regulator with 6 power levels to adapt the tool to the wood and type of work to be carried out.
- Multi-pass milling system or "turret mode" for planing and levelling irregular wood.
- Switch with interlock button to keep the tool on effortlessly for long work.
- External vacuum cleaner coupling for efficient chip removal.
- Robust design with aluminium base to avoid deflections and vibrations, guaranteeing maximum precision.
- Prepared to be fixed to a work table and to be used as a bench router.
- Millimetric depth guide for extremely precise work with micron adjustment.
- Side guide with rail guide, as well as structure for milling with templates.
- Soft start to avoid abrupt start-ups that could cause accidents to the operator and the material to be processed.

DATA SHEET

Power	1800	W
No load speed	8000-30000	rpm
Collet	$\varnothing 6-6.3-8-12-12.7$	mm
Milling depth	0-60	mm
Weight	4	kg

INCLUDED

- Case PE-HD
- 6 collets and 6 bits
- Side guide.
- Template Milling guide
- Service key.
- Vacuum coupling
- PE-HD case
