

PRESS DRILL

TR 130 C

ADVANTAGES

- Press drill with 1/HP induction motor and capacity for drill bits up to $\varnothing 13$ mm.
- Solid and robust design for high precision work in all types of materials.
- 5 speed levels that are calibrated according to the position of the belt on the motor shafts.
- $\varnothing 13$ mm keychuck with B16 coupling for quick and intuitive accessory change.
- Drill chuck guard to prevent splashes of slag and drilling debris.
- Support table with adjustable height and inclination to adapt to the workpiece and the type of drilling required. Table prepared for anchoring clamps.
- Solid base prepared for screwing the drill to the floor.

DATA SHEET

Power - Voltage	1/2 - 230	HP / V
No load speed	620 - 2620	/min
Speeds	5	
Total height	580	mm
Drill chuck	$\varnothing 13$	mm
Distance from chuck to column	105	mm
Spindle travel	50	mm
Spindle coupling	B16	n°
Weight	14	kg
