

## VACUUM CLEANER

### VAC 2030 V- SYSTEM

#### ADVANTAGES

- Powerful 1600W vacuum cleaner for solids and liquids, especially for extra-fine dust, designed to connect to a tool (wall sander).
- **STAYER V-SYSTEM** hoovers allow continuous operation for long periods of time without losing suction capacity, thanks to the fact that every 20 seconds the HEPA filters are automatically cleaned by means of the most advanced vibration technology. It is the perfect hoover for workshops, renovations and construction.
- **Automatic liquid tank fullness detection system.** When it detects that the water is above the maximum level, the hoover stops working automatically to proceed to empty it.
- 2000W auxiliary socket to work with another tool.
- Automatic switching on and off of the hoover when using the tool.
- **2m antistatic hose.**
- Washable and easy to remove HEPA filters, with double filtering system to protect the motor.
- Extra shock-resistant PP (polypropylene) tank, 30 L.
- Powerful 1600 W copper motor with a longer service life.
- Optimised design for perfect motor cooling.
- 2 operating modes for working with external tools.
- Suitable for connection to **STAYER wall sanders.**

Tube connector

2m antistatic flexible tube

Auxiliary socket

Steerable transport wheels

4m power cord

**V-System**  
Automatic filter cleaning

Outlet plate of air

Metallic telescopic tube

DATA SHEET

Cód. 1.3439

Voltage / Frequency	220 - 240V, 50 / 60	Hz
Power	1600	W
Auxiliary output power	2000	w
Engine	Copper	
Tank material	PP	
Vacuum pressure	>17Kpa	
Ability	30L	
Noise	<82	dB
Power cord length (output)	4	m
Weight	11	Kg

#### INCLUDED

- x1 Long square brush (for wet and dry)-32mm.
- x1 Small nozzle 32 mm.
- x1 Circular nozzle 32 mm.
- x1 pair of small front wheels.
- x1 pair of large rear wheels.
- x1 metal telescopic tube-32mm.
